**UPDATE: CALTRANS STARTS ANOTHER SR-91 CORRIDOR
IMPROVEMENT PROJECT**

CORONA – The California Department of Transportation (Caltrans) will begin the last phase of work on a 3.3-mile project to improve traffic flow on westbound State Route 91 from Route 71 to the 241/91 interchange. Once the striping is finished the project will be complete, and the entire 3.3 miles of auxiliary lane will be available for motorists.

The current work includes re-striping various lanes on 2.1 miles of westbound Route 91, from Route 71 to the Riverside/Orange County line. This will extend the 1.2 miles of auxiliary lane created by an earlier project. The re-striping work will continue for five nights. Westbound lanes will be progressively closed throughout the night as traffic allows. At least one lane will be open at all times. Motorists should generally expect lane closures between the hours of 6 PM to 6 AM.

Lane Closure Schedule

- From Serfas Club Drive to Coal Canyon Road, various westbound lanes:
Friday, May 14 – 6 PM to 6 AM the following day
Saturday, May 15 – 7 PM to 6 AM
Sunday, May 16 – 7 PM to 5 AM
Monday and Tuesday, May 17 and 18 – 6 PM to 5 AM on Wednesday

Note: The toll road will remain open throughout this work schedule.

Motorists are advised to reduce speeds in construction areas, and please, always SLOW FOR THE CONE ZONE.
